How to consult the class schedule

KAIROS App

O General Info

How to consult the class schedule

What is Kairos App for?

It is possible to consult the class schedule using the Kairos App.

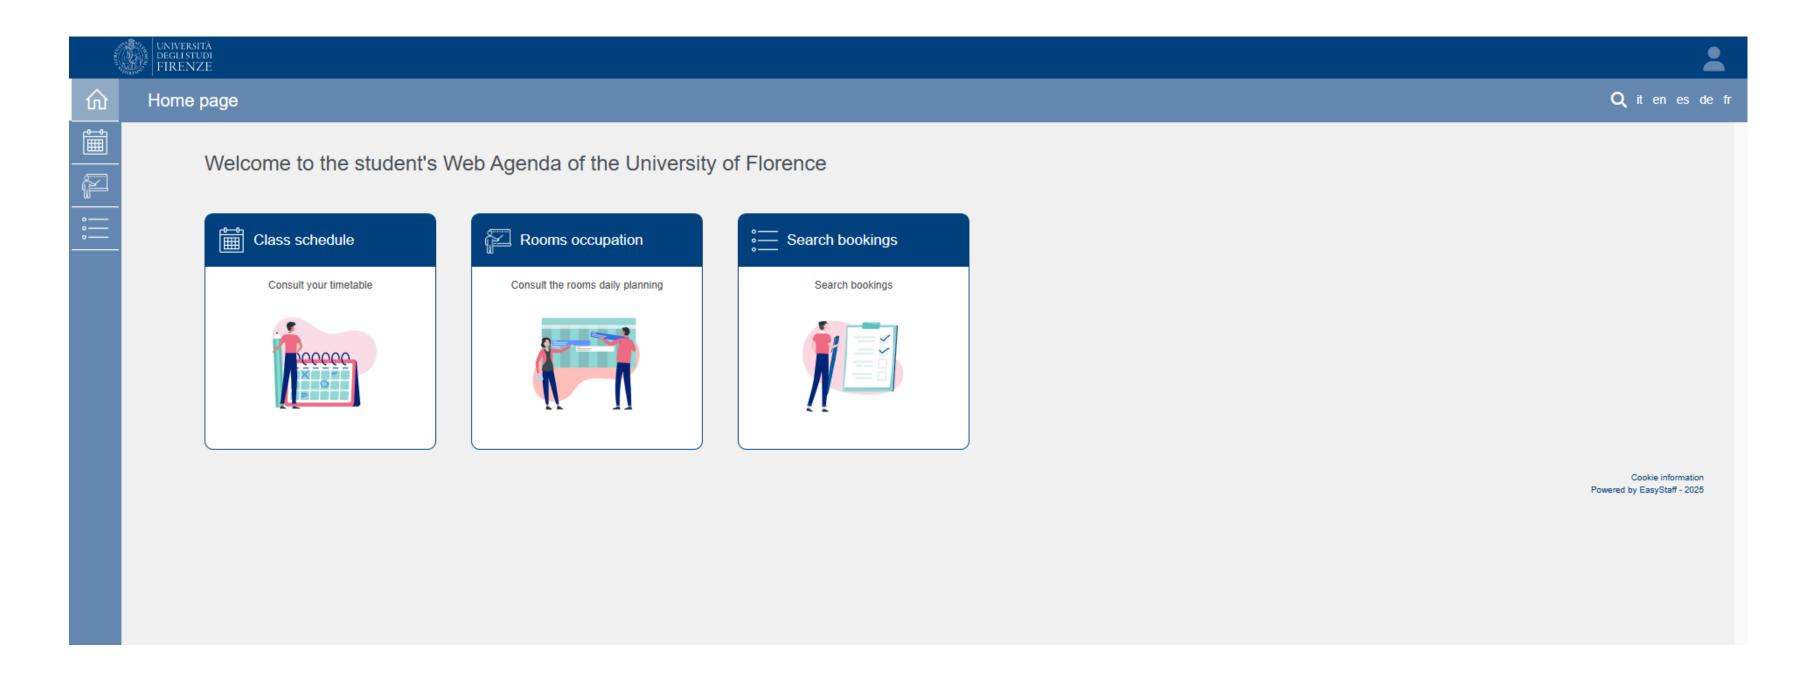

You can find the Kairos App at this link:

https://kairos.unifi.it/agendaweb/index.php?view=home&_lang=en

On Kairos, it is possible not only to check the class schedule but also to verify classroom occupancy or any changes to the lessons.

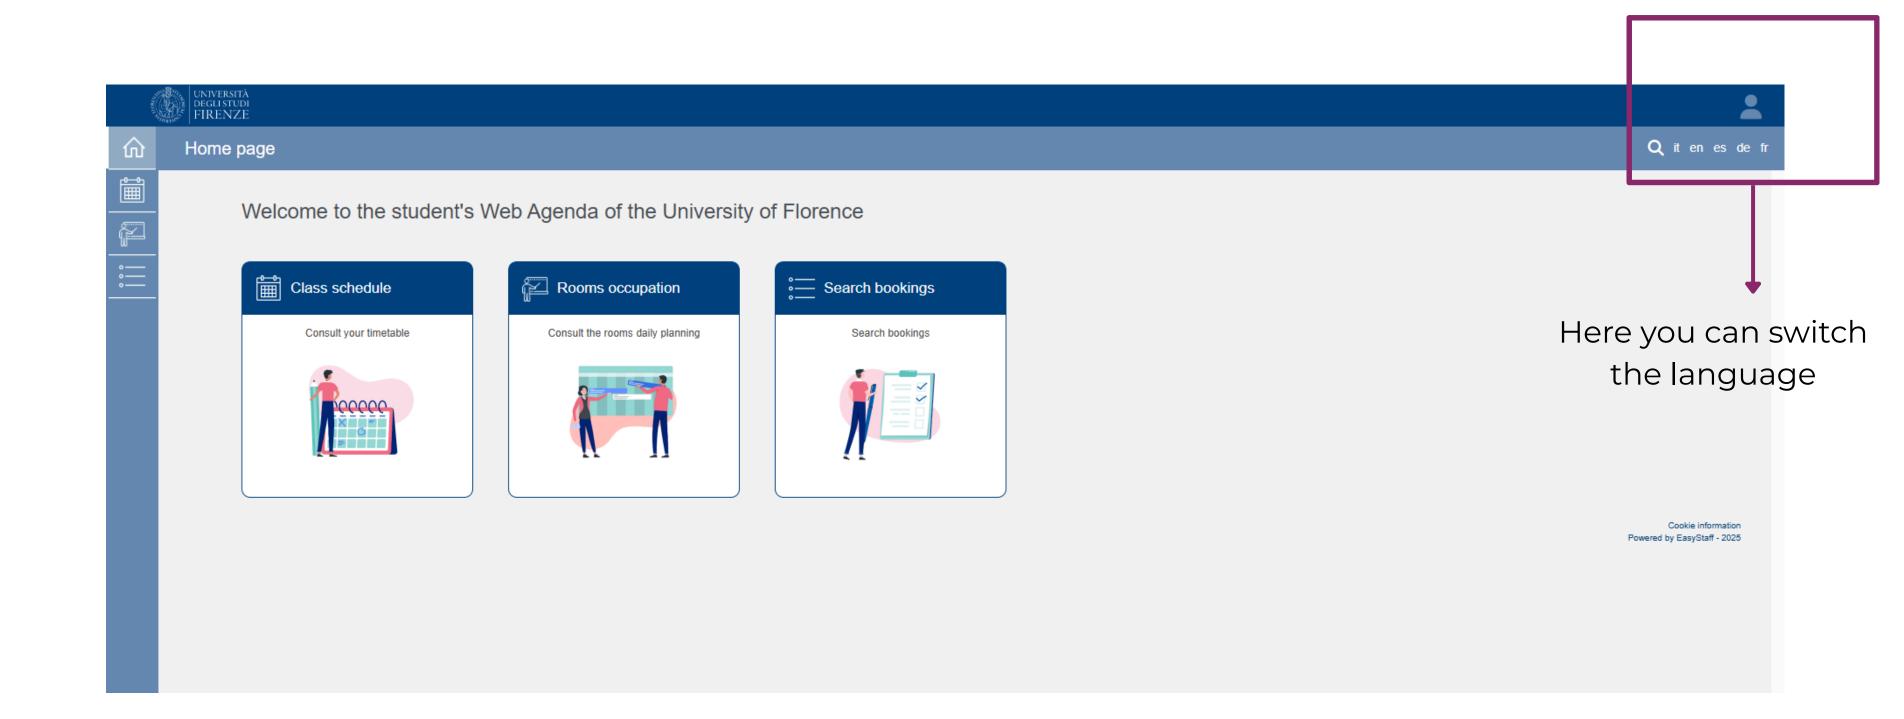

This is the homepage of the Kairos app.

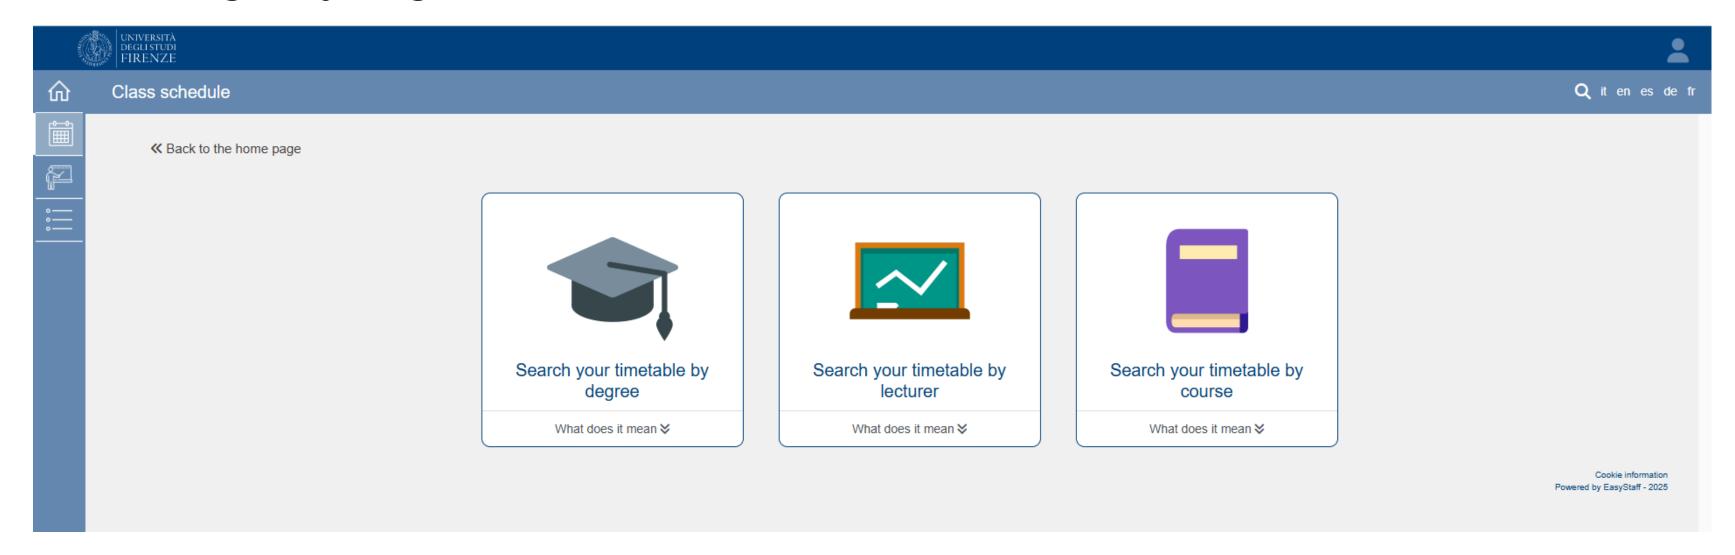

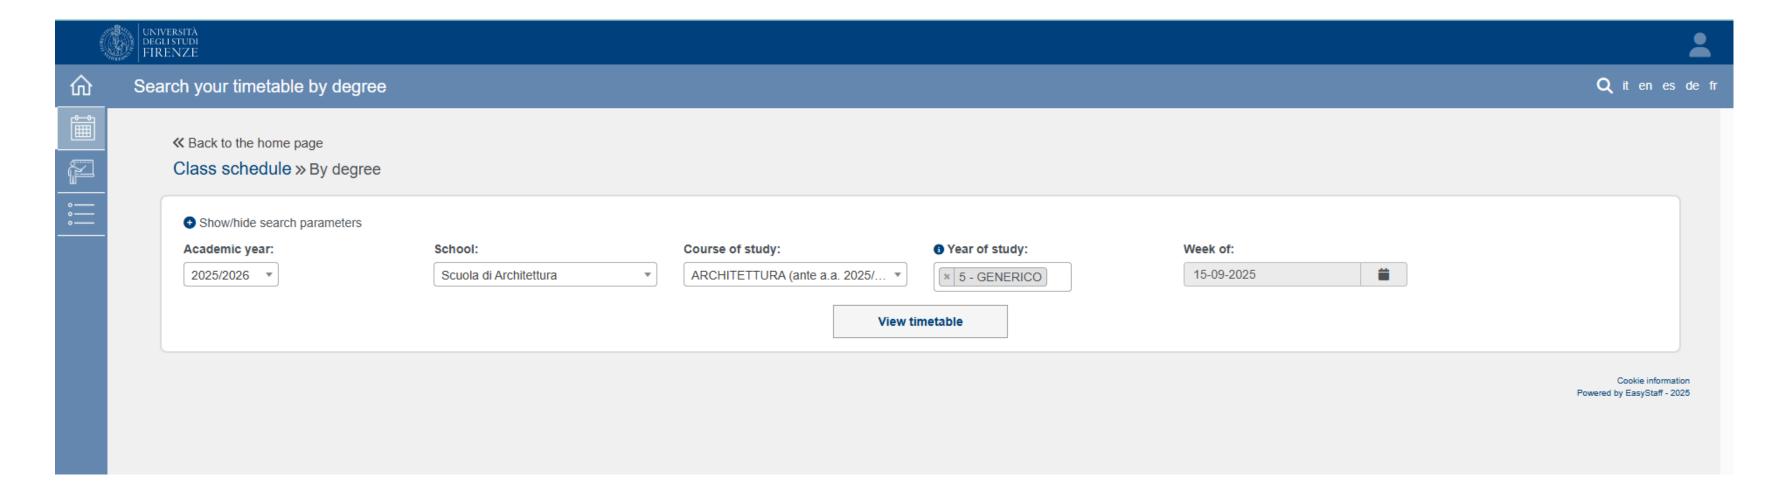

You can consult the timetable by degree, professor, or course. We recommend consulting it by degree.

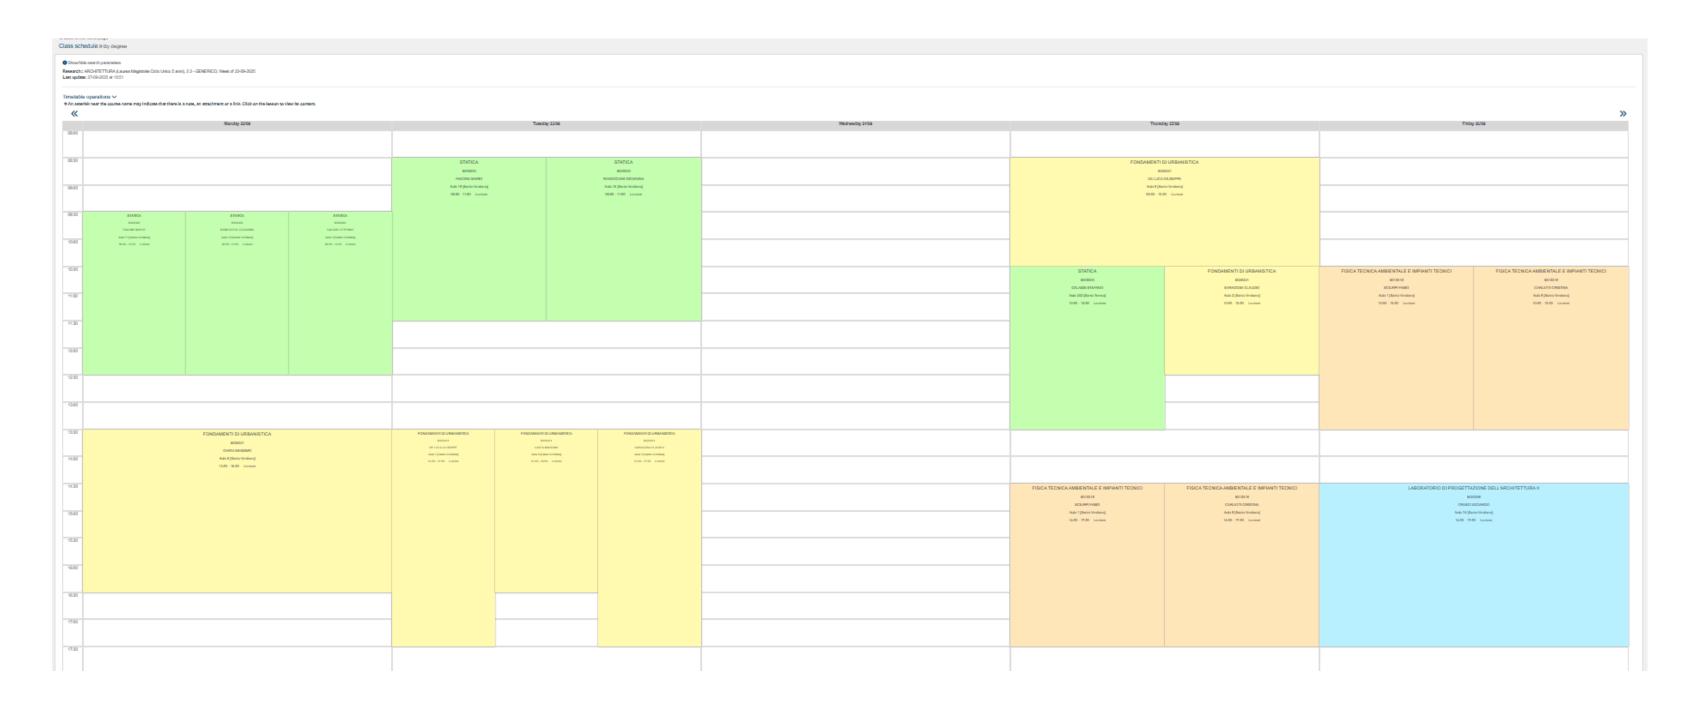

To get an idea of a typical week, select a Monday in October or september, for example. At certain times of the year, classes are suspended for exams or workshops (see the academic calendar for details).

How to consult the class schedule

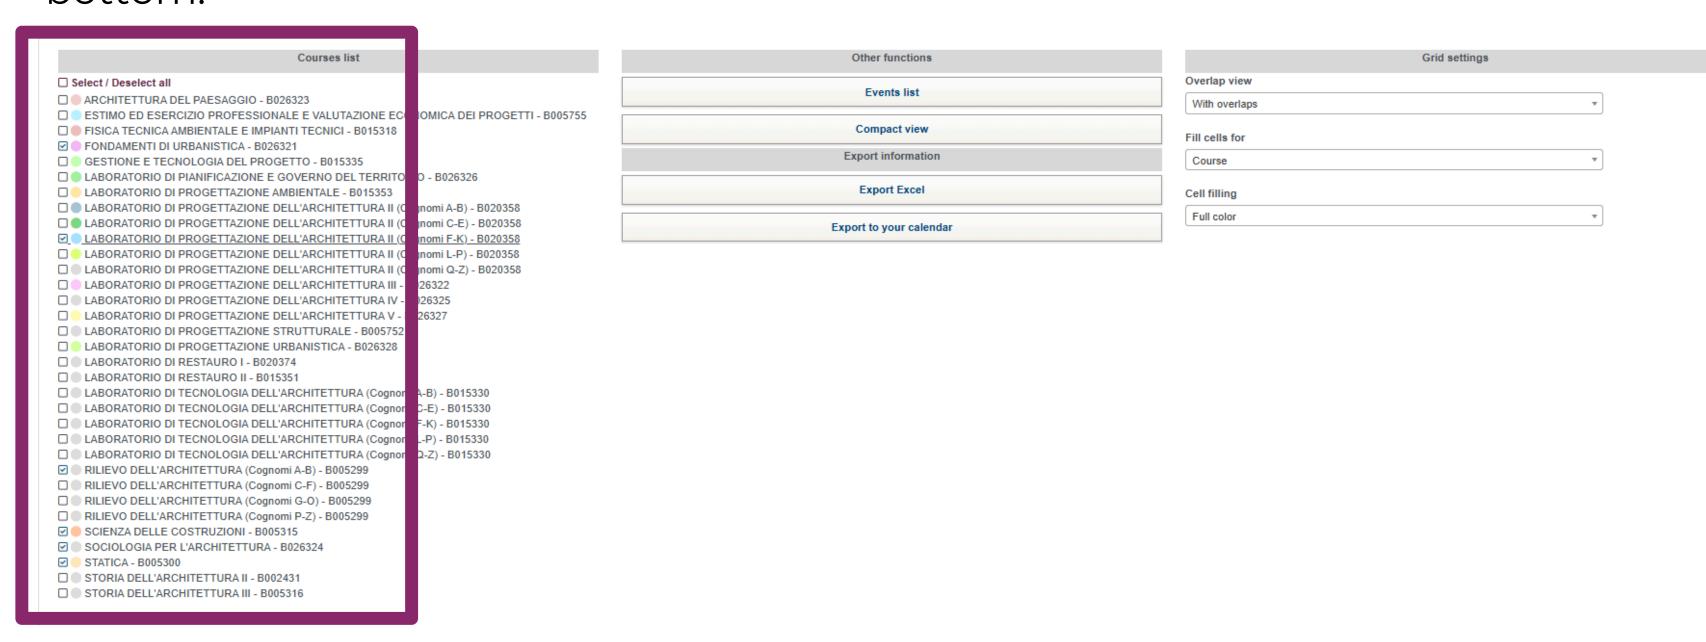

You will see a timetable like the one below.

How to consult the class schedule

You may need courses covering several years of study. In this case, select the years you are interested in at the top and check only the courses you need at the bottom.

You can change the table settings or export the calendar
